

The Queen of spices as the household name among the millions today, He found MWPL company in 2020 and was doing MWPL Trading for some time.

Later, he entered into the arena of pure spice powders like Turmeric, Chilli and Coriander. His inquisitiveness let him to enter into masala world with dauntless.

He encountered a lot of hurdles, since selling masala powders during those days to the oriental women who are traditionally conservative, was not that easy. It was the concept selling on "Easy Cooking" rather than marketing food products. With self-determination and persistent attempts he was able to get into the kitchens of our country and the rest of the Indian Cities.

Earlier, spices were chosen, measured, pounded and mixed, all in the kitchen. It took hours to prepare these spice recipes passed down by generations. Today, millions of homes enjoy the same authentic taste and aroma of traditional delicacies, with MWPL perfect blend of pure spices. These blends even bring the regions closer by providing the authentic taste of other regional cuisines, in the convenience of a pack, at home. That's why we think, MWPL Masale brings India closer through taste!
